the BUSINESS WE WORK ON

Complementary and general contracting, general supplies, general and specialized contracting, and all electromechanical works (supply, installation, and maintenance of elevators and escalators, import and export, commercial agencies, trade in elevator supplies) (complementary works specialized in central air cooler, fire fighting, fire alarm systems, and electricity)

Who is (First Power) in brief

It is our pleasure that our company, through this previous work, presents our past experience, the most important affiliations, the current projects that have been implemented, interest in the future, practical capabilities, and some of the most important contracts and official papers of our company.

Our company works with leading companies such as Al-Ahly Sabbour Real Estate Development Company

And the Egyptian Acico Company, Al Adnan Contracting Company, Cordoba Real Estate Investment Company, Misr Al-Hijaz Company, and IC Group, the International Center for Real Estate Development

And Port Said Real Estate Development Company, and the Egyptian Arab Real Estate Development Company

And Amlak Real Estate Development Company, a mosque and the Police Events House (Improvement Fund), the elite, the Higher Institute for Social Service and the Ministry of Civil Aviation

Sunrise Hotel, owned by Hurghada, and other companies

And through these works that were completed and completed with those clients, we have gained the necessary expertise and are always working on development and progress. (First Power for Integrated Works and Electro mechanics) was established in the Arab Republic of Egypt as an Egyptian joint stock company in 2012 as a leading company in the field of contracting and supply, installation and maintenance of elevators and escalators

And (complementary works specialized in central air-conditioning, firefighting, fire alarm systems and electricity). And high levels of quality in work, as well as the trust granted to us by our customers and our beloved country

The high spirit of our team is always looking forward to achieving the same goals and dreams for our company, whether the partners are managers, administrators, engineers, technicians or workers. We are all working to build a strong future.

And we know very well that

THE IMPORTANCE OF WORKING FOR THE FUTURE HAS ONLY BEEN EXPERIENCED BY AMBITIOUS AND SUCCESSFUL PEOPLE
